OBJECTIVE

Dynamic Full Stack Developer and Python programmer with a passion for creating robust applications and solutions. Eager to leverage my skills in both frontend and backend development to contribute to innovative projects, enhance user experiences, and drive efficiencies in a collaborative environment.

PROFESSIONAL EXPERIENCE

TRAINEE

Agustin Galaxy world | May 2024 - November 2024

6 months industrial training on hardware and web development

EDUCATION

COMPUTER SCIENCE

Federal University of Petroleum Resources Effrun (FUPRE) | September 2021 - present

Engaged in foundational and advanced concepts of computer science, including programming languages, algorithms, data structures, and software development. Participated in hands-on projects, enhancing problem-solving skills and technical proficiency, while fostering teamwork and communication abilities in collaborative environments.
